

San Marino, 03.10.2017

PRESS RELEASE
for immediate release

Cantoni at SIA Guest 2017 the day-light for the hospitality and wellness world

Anything less than the day-light to pamper the guests in every single moment they will dedicate to their beauty routine. Cantoni, at SIA Guest in Rimini for the first time ever, exhibits its cutting-edge collection of lighted mirrors, named Unica. The Cantoni's gallery space will tell to the visitor about a game-changing technology that encases the day-light into the mirror surface.

This technology, named and patented I-light, actually transforms the mirror from a simple decorative elements into a highly functional tool, the pivotal element around which to plan the design of luxury hotel bathrooms , wellness areas and beauty corners. The hotel guests, who spend time in hotel taking care of their well-being aiming to be at their best for important meeting, conferences and dinners , will have the day-light waiting for them in the hotel room, ready to light up with a simple finger touch.

The **4 collections of luxury mirrors and panels of the Unica range**, bring into effect the purest concept of design, the point where beauty and function combine to meet the needs of actual spaces and people.

Thanks to the Cantoni's **focus on custom-made solutions**, each lighted mirror, panel or console table starts life as **a unique piece** in every detail and can therefore easily fit into any interior design.

Cantoni's goal is to **support interior design studios** in the **creation of stunning and highly functional rooms** for the beauty care in luxury hotels, hospitality spaces and wellness structures thanks to objects that bring the full force of modern luxury to life.

Cantoni will exhibit at:
SIA Guest 2017, Rimini Exhibitions
Hall D3, / Stand 112
October, 12-14

The Company

Cantoni, a production company based in San Marino, has its roots in the world of beauty and appearance: in 1996 has conceived and realised the first portable makeup

station with lights and since then has been distributing its exclusive makeup stations for professionals worldwide. Since 2015, driven by a growing demand for the design of beauty spaces, Cantoni has started to shift its research into perfect lighting from the professional world to that of interior design.

The synergy between the industrial design approach, experience in the field, artisanal attention to detail and creative flair has given rise to the **Unica project**. Thanks to this new project, shown to the public for the first time at Maison et Objet 2015, the company has had the chance to become a member of the influential Italian group **Federlegno –Assobagno**, which has joined the Design Italia group show with at ISH 2017.
