## TECHNOLOGY AND CRAFTMANSHIP

Backlit frames with **decorative or simple profiles** encompassing all of the technology needed to enhance shapes and colours. The light passes through the image, adding depth and luminosity, transforming it into a splendid decorative picture.

In the Visual range, attention to detail and Italian production quality combine with the emotional richness of colour enhanced by a light that is unique in the world.

**The Unica backlit panels** have been created with the aim of revolutionising display advertising, revealing the astounding creative potential offered by backlit frames in interior design. Production flexibility, combined with the utmost reliability of the components and simplicity of use, make products from the PH and PHF collections valuable allies for any contract project.

## SPRING-FIT: DYNAMIC VISUAL COMMUNICATION

True design is that which serves a purpose, brilliant ideas that improve life concealed in an apparently simple object.

The **Spring-fit system** was created under that premise.

The system is designed to enable the replacement of images in backlit panels and frames with a push of the hand.

The backlit panel is no longer a simple advertising tool, it has become a more **dynamic and versatile furnishing element** capable of enhancing photographs and digital works of art.

## **PHF Collection**

### **Flexible tailor-made emotions**

Design: **Cantoni**

Framed backlit panels from the PHF range add intensity and magic to images of the highest quality printed on translucent film, creating pictures with the most incredible depth and beauty.

This collection makes custom design its distinctive feature.

We have chosen the warm embrace of natural materials crafted with passion to delicately enclose the emotions conveyed by your most treasured images. These objects bring to life the concept of modern luxury that lies at the heart of the entire Unica range.

Example of customised creation:  
PH12 panel 525X775 mm  
Frame 193, finish AE vintage silver

## PHF collection

### Tailored backlit painting

Design: **Cantoni**

The image is customisable and can be replaced with a simple press of the hand thanks to the Spring-fit system. The handmade leather-upholstered or wooden frames are handcrafted by Italian master artisans to sizes and finishes chosen by the customer.

Customisable and replaceable image.

- . Integrated side switch fitted in the frame
- . No external transformer required
- . Replaceable image with Spring-fit system
- . Style, color and finish of the frame to customer requirements
- . Post-sales service of High-definition image print available

### FURNISH THE BEDROOMS

PH10 Panel 1035X1835 mm  
Frame 391A BPG finishes grey-patina white

The distinctive aesthetic balance, based on a combination of innovation and tradition, makes PHF Unica backlit panels perfect for use in areas intended for relaxation, where they **create pleasant and comfortable spaces.**

PHF panels are extremely versatile and timeless objects, thanks to the ease with which the image within can be replaced whenever required.

**FURNISH THE RETAIL SPACES**

PH10 Panel 1035X1835 mm

Frame 388A BPG finishes grey-patina white

MDE516 Mirror Frame 388A BPG finishes grey-patina white

Atmosphere and light at the heart of a retail space: PHF LED backlit panels are designed to act as a versatile centrepiece. PHF backlit panels encourage customers to focus on specific visual themes, acting as an incentive to buy and improving the buying experience. The images can be replaced with a simple push of the hand.

### FURNISH THE BEAUTY SPACES

PH07 Panel 1035x1450 mm  
Wood frame 193, OE finishes Vintage Gold  
MDE505 mirror panel 193, OE finishes Vintage Gold

The MF Unica range of framed mirrors and PHF backlit panels can be combined to furnish a salon with style, providing natural-style lighting specifically designed to render colours and hues in a natural way. PHF LED backlit panels complete the space, creating windows of light and colour on the walls and making it possible to renew the look of a room whenever desired in a quick and easy manner thanks to the Spring-fit system.

# TECHNICAL SHEET

Unica | PHF Line

---

**STRUCTURE**

6060-T5 non-deformable aluminium

. Min. size 450 mm

. Max. size 1835 mm

**LIGHTED PANEL**

Acrylic sheets with a high level of light emission, designed to enhance image brightness thanks to pure, high-luminosity and high-diffusivity light sources that render colours with high visual uniformity.

**REAR PANEL**

Composite panel made up of two aluminium sheets with a polyethylene core.

**LIGHT SOURCE**

. LED Strip 120/m

. Colour temperature: 5500° K

. Rated output: 9.6W per metre

. Voltage: 240 V AC

. Side on/off switch

. Integrated transformer

The light source contained in this equipment may only be replaced by the manufacturer, its service department or equivalent qualified personnel.

Device for indoor use only, IP20

The electrical output cable of the WALL PANEL is not equipped with the plug: it needs to be connected to the electrical wiring of the room.

All products by Cantoni are made in Italy with carefully selected materials.

Each product is the result of a careful study to ensure the best balance between aesthetics and technology.  
The authenticity of each piece by Cantoni is ensured by our trademark.

We are always available to respond to every request and question about products.  
Our technical department is then available for custom projects

PLEASE NOTE:

Cantoni reserves the right to modify at any time the items in the catalogue for technical or commercial purposes.  
Shipments are made from our offices in San Marino
